Can we please stop with the scroll-jacking carousels on websites?

CSS Scroll Snap is a much better solution!

Re-built the Uniqlo home page with 6 lines of CSS and 4 lines of JS

can do it without any JavaScript at all

*based on scroll-driven animation support but scrollsnapchanging isn't in Firefox/Safari either

Updated this Humane demo to include the CSS powered scroll indicators

The CSS trick? Two animations with different animation-range
